Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The Amendment filed on October 28, 2003 has been acknowledged.

Request for Continued Examination

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 17, 2003 has been entered.

Withdrawal of Allowability

2. The indicated allowability of claim 39 is withdrawn in view of the reference to Childers et al. (US 5,880,748). Rejections based on the cited reference follow.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 39 is rejected under 35 U.S.C. 102(e) as being anticipated by Childers et al. (US 5,880,748).

Childers et al. discloses all the claimed features of the invention including:

- a method (Figs. 2, 3) for regulating pressure in a print cartridge (211) having a fluid source (205) and a local reservoir (215), the method comprising the steps of:

- sensing the pressure (column 6, lines 15-17);

- issuing a first flow of fluid into the local reservoir (by opening valve 219) from the fluid source (Figs. 2, 3) when the pressure is less than a first predetermined limit (first limit is slightly above first critical value, column 5, lines 46-48, column 6, lines 17-21);

- issuing a second flow of fluid (valve 219 remains open, column 6, lines 21-24) into the local reservoir from the fluid source (Figs. 2, 3) when the pressure is less than a second predetermined limit (second limit is slightly below second critical value, column 5, lines 50-52, column 6, lines 23-25);

- evacuating air from the local reservoir when the pressure is more than a third predetermined limit (limit being less than 1.0 psi, column 9, lines 37-39).

Allowable Subject Matter

4. Claims 35, 36, 38, 40, 41, and 44 are allowed.

Reasons For Allowance

5. The method as claimed wherein activating/deactivating a first and second flow valves (claims 35, 38, 44) is not disclosed, suggested, or made obvious by the prior art of record.

Response to Arguments

6. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.
